

Budacious Puppies

Jan and Larry Budenz

Phone 913-294-4856

Health Guarantee:

This puppy is guaranteed to be free of any life threatening disease or illness for 3 days from the date of arrival and two years from the DOB for any life threatening genetic health fault. You must take your puppy to your veterinarian within three days of receipt of the puppy to make this guarantee valid. Proper documentation is required from a licensed veterinarian to receive the next available puppy. The puppy must be returned to us at buyers' expense unless other arrangements are agreed upon by both parties. We promise to be fair and reasonable. Budacious Puppies must be notified within one week of diagnosis and treatments or guarantee is null and void. Buyer is responsible to provide adequate shelter, proper diet, and necessary health care (which includes but is not limited to follow-up vaccinations, worming, and any tests or X-rays necessary for proper diagnosis), and loving treatment.

Contract:

Date: _____

Re: Female/Male Chihuahua/Shorgi

Shipping Date: _____

Buyer: _____

I have received your non-refundable deposit of \$_____, and the balance of (\$_____ purchase price of the puppy) \$_____ will be due at least 5 days prior to shipping. This price includes normal shipping through Continental airlines PetSafe Program. Any additional charges shall be the responsibility of the buyer. I will send the CKC registration papers for the Chihuahua by mail within the next 30 days. I would appreciate a note, photo, etc. when he/she is a year old. This provides valuable information for future breeding and it is always nice to hear how our puppies are doing. Wishing you many years of happiness with your new family member!

Sincerely,
Jan Budenz

**VERY IMPORTANT!*

Schedule Vet appointment for vaccination/worming and recommended health care!
Chihuahua Puppies are weaned with Diamond Naturals small breed puppy and Nutro Natural Choice small breed puppy. Shorgis' are weaned on Royal Canin Medium Breed Puppy. Dry food should be available at all times, and provide some of the dry mixed with warm water two times a day. Always have fresh water available for your puppy. I have provided a sample of food and also NutraCal. Chihuahua puppies and small adults are susceptible to hypoglycemia (low blood sugar). The stress of travel and change of environment can be especially hard on a small puppy. If your puppy becomes lethargic or will not eat or drink put a small dab of the NutraCal on your finger and either let the puppy lick it off or place it on their tongue. You should give the puppy about a quarter teaspoon. You can also use honey.
